Практическая работа № 2

Задание 1. Read the text

Law and Right.

An educated person is one who knows a lot about many things. I think it is very important that everyone should be educated. Each pupils mast to do everything to become a useful member of our society. Education is very important in our life.

In Russian Federation the school education is compulsory. Pupils begin to go to school at the age of 6.When they complete high grades they can either continue to study at school for more 2 years, or go to a professional school where they study not only main subjects, but are able to learn some profession

When pupils leave school they can try to continue their education in institutes or universities. There are many school types of schools in Russia: specialized, politecnical, musical art and others. Nowadays appeared some new types of schools: gymnasiums and colleges. I learn in one of the specialized schools in Moscow.

To my mind, our school is very well equipped. It has a gym, a library, a computer class and some labs(for example - chemistry lab or physics lab).

At school we had classes in Russian, literature, mathematics, English, history and so on. My favorite subjects were English, History and Russian . My favorite subjects were English, Biology and Chemistry. I like English because I began better understand my native language & I need it for my future besides it is very interesting to read books, listen the news ,speak with English-speaking people. The Biology , Chemistry is interesting for me because learn them very easy , because it is interesting for me to know from what consist things around us. I like my school because we have a very good teachers, it is interesting to learn subjects when the teacher is good.

School is one of our houses in life.
